On 19 July, the community in the Abu Shouk camp for internally displaced persons in El Fasher, North Darfur, received items from UNAMID's UN Volunteers Field Unit to improve the quality of life of some of the most vulnerable members of the community.

UNAMID Deputy Joint Special Representative (Political) Aichatou Mindaoudou Souleymane cochaired the event with UN Resident Coordinator / Humanitarian Coordinator and UNDP Resident Representative in Sudan Ali Al-Za'tari.

"We have achieved an important step in our collaboration

to advance our common support to the DDPD implementation and the peace process," said Mr. Al-Za'tari. "The mechanisms established today will greatly facilitate this coordination and implementation."

UNAMID used the occasion to inform the UNCT partners of the latest update to its protection of civilians strategy, highlighting ways to enhance the early warning network in Darfur by harnessing the Mission's partnership with UNCT on the ground.

"While UNAMID's new strategy addresses the latest challenges the Mission faces in the implementation of its Protection of Civilian mandate, it also provides a clear framework for leveraging the relationships UN agencies, funds, and programmes have developed with Darfuri communities," stated Ms. Mindaoudou. ■
